EXPERIENCE

Software Developer | UCF Senior Design (U.S. Army Reserves) | Orlando, FL

January 2024 – December 2024

- Developed web and mobile interfaces using React and React Native, with PostgreSQL and AWS integration for backend services and cloud deployment.
- Contributed to feature development across web and mobile platforms, enhancing usability and performance in a React-based Army Reserves application.
- Diagnosed and fixed critical full-stack bugs in React and PostgreSQL, cutting QA turnaround time by 20% and improving release readiness.
- Led and coordinated QA testing efforts, streamlining test execution and improving team feedback loops during development sprints.
- Trusted by team lead to take on high-priority tasks and support teammates across multiple development milestones.

Receiving Associate | The Home Depot | Bellevue, TN

December 2019 – Present

- Provided leadership and hands-on support in a fast-paced, team-driven warehouse environment, ensuring efficient task execution under tight timelines.
 - Managed incoming freight by verifying shipments, organizing inventory, and ensuring timely stock placement to optimize store operations.
 - Collaborated with cross-functional teams to unload, sort, and quality-check merchandise, ensuring accurate inventory handling and maintaining high operational standards.
